

Cookies Policy

1 Cookie Policy

Arpedon P.C. ("we", "our" or "us") uses cookies on the website arpedon.com. The information set out in this policy is provided in addition to our privacy policy, and should be read alongside our privacy policy.

1.1 Introduction

Cookies are small text files that are placed on your computer or mobile device by websites that you visit. They are widely used in order to make websites work, or work more efficiently, as well as to provide web services and functionalities for users. We use cookies to store your preferred language, allow the use of email forms and to provide us with anonymous information on the use of our Website.

Cookies are small text files that are placed on your computer or mobile device by websites that you visit. Most web browsers are set to accept cookies. However you do not need to have cookies turned on to visit our marketing and help pages. In the majority of cases, a cookie does not provide us with any personal information.

1.2 Types of cookies

Cookies may be either "persistent" cookies or "session" cookies. The Website uses both persistent and session cookies.

A persistent cookie consists of a text file sent by a web server to a web browser, which allows us to keep you logged in (where you have chosen to do so), collect and analyze (on an anonymous basis) traffic and use of the Website, monitor the system and improve operating performance, for example, store your preferences to enhance your subsequent visits. It will not be automatically deleted when the browser is closed but is stored by the browser and will remain valid until its set expiry date (unless deleted by the user before the expiry date).

A session cookie is like a persistent cookie, but is stored temporarily during a browsing session and will expire at the end of the user session, when the web browser is closed.

A complete list of the cookies we use is set out at the end of this policy. This list (together with the rest of this policy) is subject to change by Arpedon from time to time.

1.3 Other tracking technologies

Third Party analytics. We have engaged Google's Analytics to analyse the activities of visitors to the Website through the use of cookies and other tracking technologies which enable them to monitor traffic to, and use of the Website. This enables us to evaluate usage of the Website. Also we use MailerLite to send newsletters and updates and use their sign up form which uses cookies to gather your email. These third party cookies are governed by each third party's privacy or cookies policy.

Third party analytics are only used on our marketing and help pages.

1.4 Our use of cookies

We don't store cookies before you allow us by clicking OK on the cookie information banner. We do not automatically store personal information from browsers to the Website, other than your browser language settings.

ALike all cookies, you are able to remove or block particular cookies at any time (see below).

1.5 Your cookie choices

The majority of browsers will allow you to alter the settings used for cookies and to disable and enable them as you require.

You can reject all cookies (except strictly necessary cookies) in case you prefer not to receive them, and you can have your computer warn you whenever cookies are being used. You can delete the cookies that are already on your computer and you can set your browser to prevent them from being placed. Disabling cookies may, however, prevent some web services (including on the Website) from working correctly. Please be aware that when you have set your computer to reject cookies, it can limit the functionality of the Website and it is possible then that you will not have access to some of the features on the Website.

To disable cookies, or to receive a warning whenever cookies are being used, you have to adjust your browser settings. You can adjust your browser settings to delete certain cookies. Visit the "help" section of your browser for how to manage your cookie settings, or follow the links below:
